

Entry Level 48 Ports Managed Switch With 6 SFP+ 10Gigabit Uplink Ports

CERIO CS-2648XG is latest powerful high-performance 6 SFP+ 10Gigabit with 48 port 10/100/1000Mbps web managed switch and supports Remote control and management through a web-based User Interface. This Web Managed switch supports Spanning Tree / Rapid Spanning Tree protocol, Port base IEEE 802.1Q VLAN Tagging, IGMP snooping, IEEE 802.1p port-based QoS, and Bandwidth control / Loop Detection. CS-2648XG with high performance gigabit design provides reliable performance and allows for easy management of auto-negotiation speeds.

LAYER 2 WEB MANAGED SWITCH

48 PORT 10/100/1000M GIGABIT WITH 6 SFP+ 10GIGABIT PORTS

Highlight Features

- ✓ Complying with IEEE 802.3 10Base-T, IEEE 802.3u 100Base-TX, IEEE 802.3ab 1000Base-T, IEEE 802.3ae SFP+, IEEE 802.3az EEE standards.
- ✓ Supports 48 port 10/100/1000Mbps TX Auto-Negotiation Ethernet Switch.
- ✓ Supports 6 SFP+ 10Gigabit uplink ports for long-distance network applications.
- ✓ Supports Dual Image function, which can shorten the downtime during the switch firmware upgrade or downgrade, and supports Active firmware image, Backup firmware image security backup mechanisms.
- ✓ Supports IPv6 Internet Protocol, IPv6 Auto-configuration mechanism and DHCPv6 Client and other functions to facilitate the setting and management of IP addresses.
- ✓ Supports 6kV surge protection on RJ45 port.
- ✓ Supports "19" rack mount installation · metal case durable design and made in Taiwan.

19" Rack Mount Installation

Surge Protection 6kV on RJ45

Hardware Monitor & Alarm Function

Support system overheating or voltage error safety mechanism through LED alarm.

Provides 6SFP+ 10Gigabit Uplink Ports

Supports 6 SFP+ 10Gigabit uplink ports for long-distance network applications.

Supports RJ45 console port, the administrator can manage and maintain through the console port, and the console cable had included in the package. It's convenient for administrators.
