

CS-2208G-8P

8 Port 10/100/1000M Gigabit Web Managed PoE+ with 2 SFP Ports (160Watt Power)

EAN Code : 4712757159110

Introduction

CERIO CS-2000 Series Model: CS-2208G-8P is a powerful high-performance 8 port 10/100/1000Mbps web managed switch with 2 SFP Ports and is compliant with POE+ IEEE 802.3at and 802.3af standards. This layer 2 Web Management switch includes a 160watts internal power supply and supports 130 Watt PoE Power budget, port base IEEE802.1Q VLAN Tagging, IGMP snooping, and IEEE802.1p port-based QoS. CS-2208G-8P can solve the limitations of power outlet locations and offer system relocation convenience

CERIO's CS-2208G-8P PoE+ Switch is designed for dispersing managed Power over Ethernet to small and large networks architectures. It is ideal for microsegmenting large network into smaller networks, connecting subnets for improved performance, and enabling the bandwidth demanded for multimedia and imaging applications. Users can **easily connect Wireless APs, VoIP phones, and IP Cameras** to this switch for convenient power and data transmission. Over current protection and circuit shorting protection are also supported to ensure product safety. This high power device provides easy installation, avoids limitations of power outlet locations, and offers a simple solution for system relocation.

Highlight Features

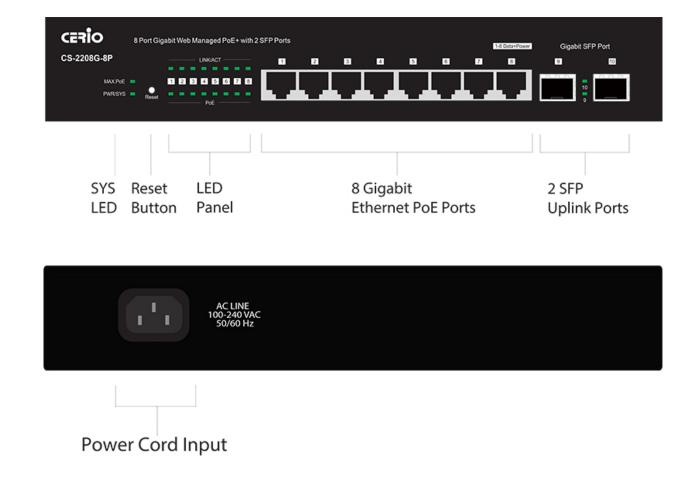

- Complying with IEEE 802.3 10Base-T, IEEE 802.3u 100Base-TX, IEEE 802.3ab 1000Base-T, IEEE 802.3z 1000Base-SX/LX, IEEE 802.3az EEE, IEEE-802.3af PoE, IEEE802.3at PoE+.
- 8port 10/100/1000Mbps TX Auto-Negotiation Ethernet Switch , 8 Port Gigabit PSE / PoE function compliant with IEEE-802.3af class3 /class2/class1 and IEEE802.3at class4.
- Supports 2 Gigabit SFP uplink ports for connecting MiniGBIC 1000Base-SX/LX fiber modules.
- Supports power of up to 30Watt/15.4Watt /7.5Watt/4Watt for each PSE/PoE port.
- Internal 160 Watts power supply supports a maximum PoE power budget of 130 Watts.
- Supports remote power control of PoE powered devices (PD), allowing by internet web on/off/ restart control and supports monitoring of individual port PoE consumption (wattage).
- Full/Half-Duplex capability on each TX port, Autolearning networking configurations.
- Supporting flow control: back pressure for Halfduplex and IEEE 802.3x for Full-duplex mode.
- Supports Store and Forward functionality.
- Non-blocking & Non-head-of-line blocking fullwire speed forwarding.
- Supports TP interface Auto MDIX function for auto TX/RX swap.

+(866) 2-8911-6160

- Provides **9K Jumbo frames** to improve network utilization of a large file transfers.
- Supports up to 4K MAC addresses and Up to 1.5Mb Packet Buffer size.
- VLAN and IEEE802.1Q tag-base VLAN based on ports & VIDs; add/remove/modify tag.
- IEEE802.3ad Link Aggregation Port trucking (LACP).

- Supports Port Mirroring function.
- Supports IEEE802.1p QoS with 4 Priority Queues and 8 Priority Weights, and Port- based QoS with 4 Priority Queues.
- Provides IGMP snooping function.
- Supports file backup and recovery.
- Web-based management interface.

Hardware Overview

IEEE 802.3 10Base-T

IEEE 802.3u 100Base-TX, IEEE 802.3ab 1000Base-T,

IEEE 802.3x Flow Control

IEEE 802.1Q VLAN Tag

IEEE 802.3az EEE

IEEE 802.1p QoS

IEEE 802.3z 1000Base-SX/LX

IEEE 802.3ad Link Aggregation

Standards & Hardware Specifications Network Standards Conformance

IEEE 802.3af Power over Ethernet (15.4 Watt PoE+)

Switch Specifications
Link Aggregation
IEEE802.3ad LACP Link Aggregation Supported
Port Mirror

Supported

Quality of Service (QoS)

Supports IEEE 802.1p QoS, Port-based QoS

IGMP Snooping

Supported VLAN

IEEE802.1Q Tagging VLAN, Port-Based ,Tag based VLAN

IEEE 802.3at Power over Ethernet Plus (30Watt PoE+)	
Port Configuration	Environmental & Mechanical Characteristics
8 ports RJ-45 connectors for 10/100/1000 BASE-T	Power Type
and PSE/ PoE function	160 Watt Internal Power Supply
2 SFP Uplink Ports	PoE Power Budget
Hardware Reset	53V for 130Watt (shared) for all PoE ports
	Power Consumption
Reset button for returning to factory settings	53V for 10.5 Watt (max. with no PoE Device connected
Media Access Protocol	PoE Power Output
CSMA / CD	Up to 30W per port, 53V DC
Network Media	Power Requirement
10BASE –T: UTP Cat. 3 or up,	AC 100~240VAC, 50-60Hz Auto-sensing
100BASE-TX: UTP Cat. 5 or up,	Operating Temperature
1000BASE-T: UTP Cat. 5 or up	0° to 40° C
Transmission Method	Storage Temperature
Store and Forward	-40° to 70° C
MAC Address Table	Operating Humidity
4K	10% to 90% non-condensing
Built-in Buffer	Storage Humidity
1.5Mb	5% to 90% non-condensing
Jumbo Frame	Dimensions
9К	265 x 184 x 44 mm
Data Transfer Rate	Unit Weight
10/100/1000Mbps (Half-duplex),	1.65kg
20/200/2000Mbps (Full-duplex)	Production Location
Auto MDI/MDIX	TW or CN
Yes	Certifications
LED Indicators	FCC, CE, RoHS-Compliant
Per Port: Link/Act Status x8	

Package Contents

Contents	
CS-2208G-8P Main Unit	x1
Power Cord	x1
